

zenitel

because communication is critical

PARKING

IP Solutions

Add audio to your parking garages and lots

From multi-level to fully automated car garages, the ability to provide maximum security in these environments is vital. A large proportion of security and safety problems and issues can occur in parking areas and those situations can be difficult to monitor and control. Whatever the scenario, people need access to immediate assistance and the ability to clearly communicate and get a fast, effective response.

With Zenitel intercom functionalities preinstalled, you will greatly enhance your security. With the simple push of an intercom button, users can have direct communication with parking operators and/or security personnel.

- **Superb intelligibility with HD voice and crystal-clear audio**
- **Both hardware and software embedded and integrated intercom solutions**
- **Simple to operate and maintain**

Our Integrated Parking Solutions

Security Control

Reception/Control Room

Video-enabled IP office phone to hear, be heard and to see, for effective customer service.

Entrances/Exit Door

Add voice to your CCTV and Access Control System so you can see and hear who is calling at the gate or door.

Barrier/Payment

Embedded and integrated communication solutions for parking barriers and automatic payment machines. Intelligibility out of the box with crystal-clear audio

Why choose a Zenitel solution?

Intelligibility out of the box

Hear, be heard, and be understood. HD audio quality with Automatic Noise Reduction (ANR), Acoustic Echo Cancellation (AEC) and Automatic Volume Control (AVC) technologies, within the most demanding environments.

Public address for parking

IP solutions for Public Address. Divide a parking facility into multiple zones and broadcast announcements or sound alarms.

Door intercom with video

Our Turbine Video IP intercom can withstand challenging environments such as high/low temperatures, vandalism, dirt, dust, and water.

Embedded and integrated

Software and hardware solutions for embedded intercom solutions. Easily build your own intercom that is fully integrated.

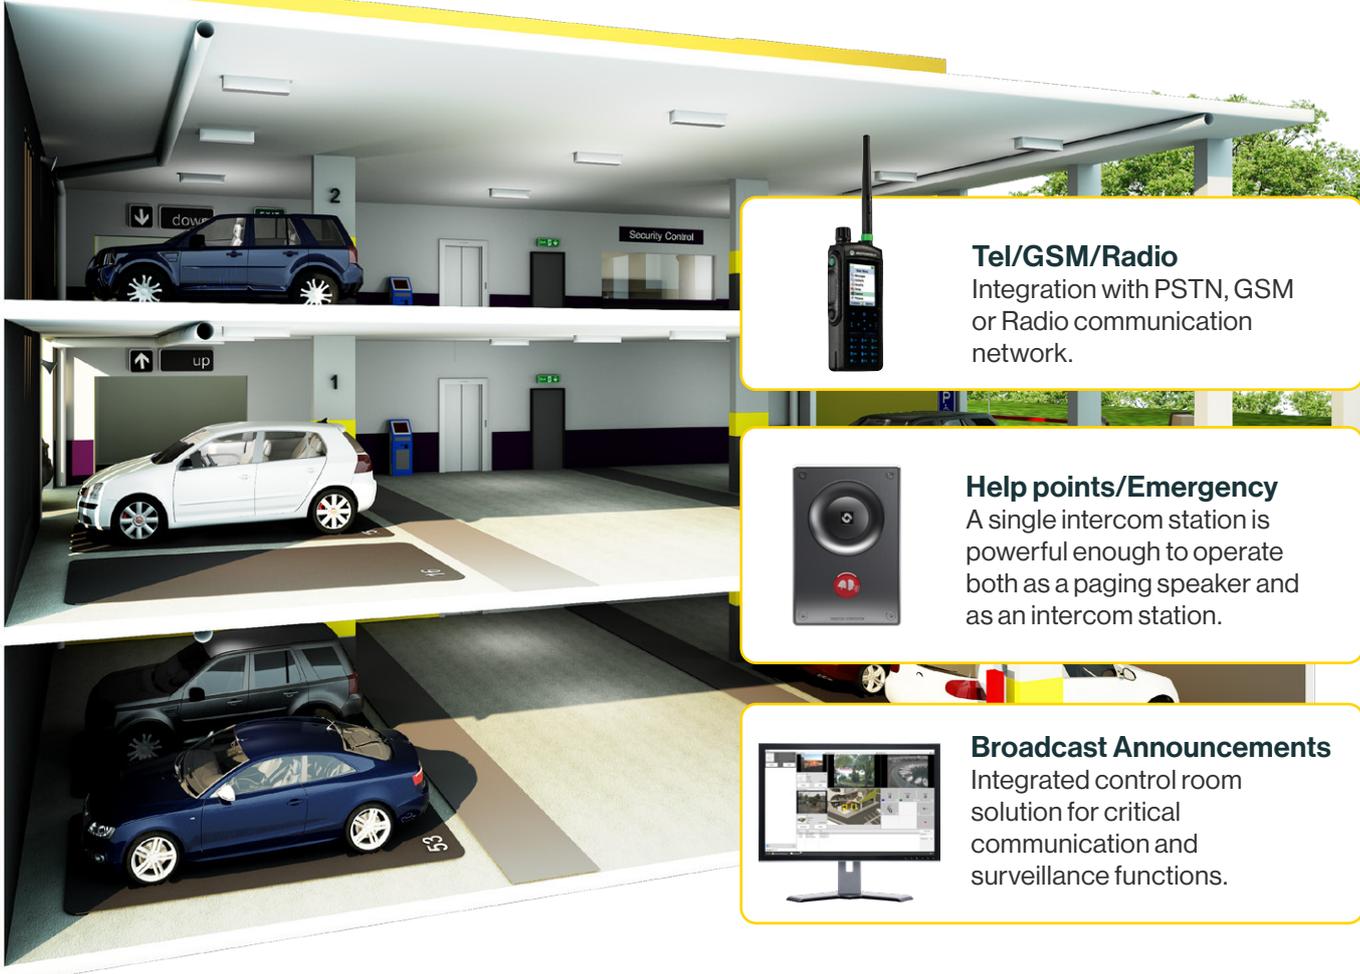

Remote operations

Receive calls remotely during out-of-office hours. Use remote commands to control calls, relays and I/O.

Control room

Intercom solutions for the control room, integrated with surveillance systems. Intercom management solution package and SDK for PC.

Tel/GSM/Radio
Integration with PSTN, GSM or Radio communication network.

Help points/Emergency
A single intercom station is powerful enough to operate both as a paging speaker and as an intercom station.

Broadcast Announcements
Integrated control room solution for critical communication and surveillance functions.

Individuals with disabilities

Products designed according to Disability Act requirements, with features like Audio Messaging and integration with hearing loops.

Upgrade a legacy solution to IP

Out-of-the-box integration solutions with analog systems and legacy communication services.

Telephone (PTSN), GSM and radio

Easy integration with a range of SIP and radio gateways. Expand communication boundaries.

Barrier and payment machines

Intercom solution for both parking barriers and automatic payment machines, with relays and I/Os that can be managed over IP.

Audio Quality 

- Active noise & echo cancellation
- Automatic volume control
- Automatic gain control
- 10W loudspeaker and 10W class D amplifier
- Sound pressure level + 100db
- Designed in accordance with ADA requirements

Cybersecurity 

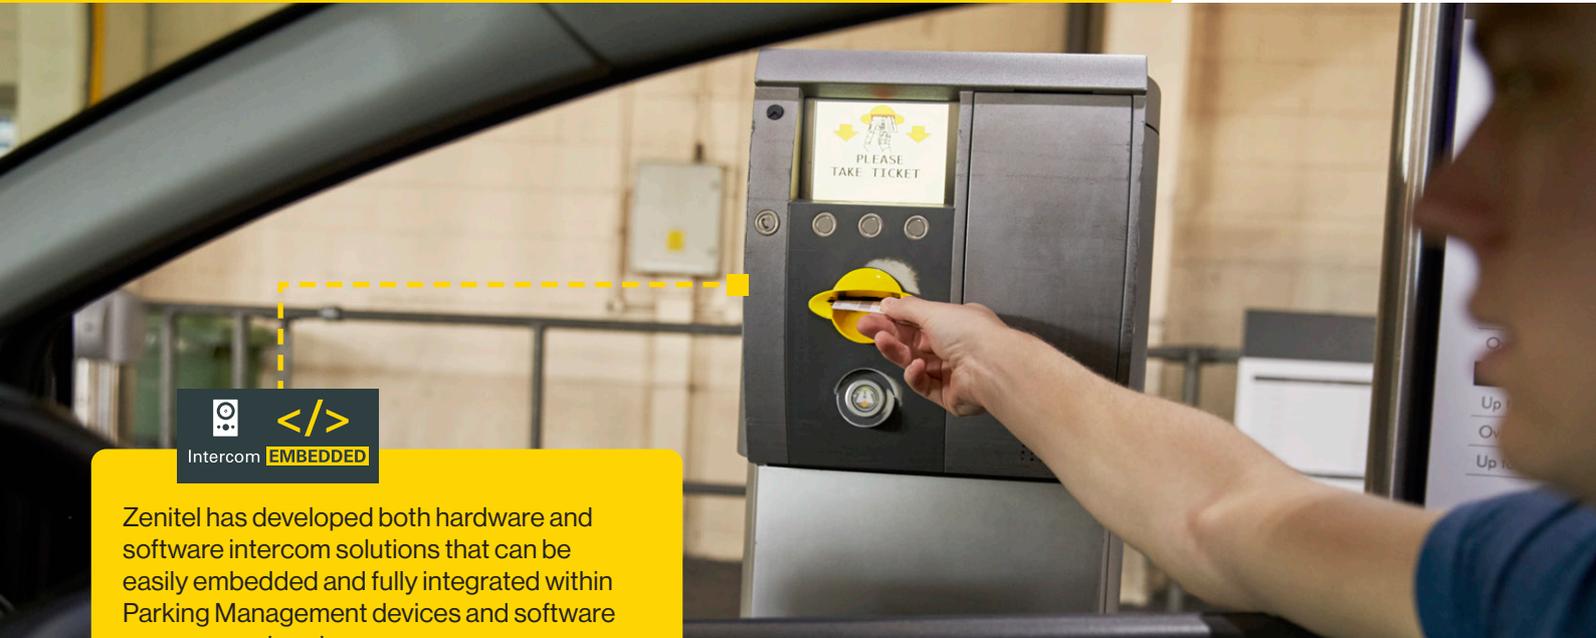

- Member of CIS (Center for Internet Security)
- Pioneer in cybersecurity by implementing network access control (IEEE 802.1X) in all our IP devices since 2010

Video Quality 

- High resolution up to 1440p x 1080p
- Frame rate up to 30 per second
- MJPEG and H.264
- 6 parallel video streams
- Wide angle lens (horizontal = 145°, vertical = 109°)

Zenitel has developed both hardware and software intercom solutions that can be easily embedded and fully integrated within Parking Management devices and software management systems.

Build your own intercom solution

Why Zenitel?

Zenitel is well positioned to drive the future of intelligent critical-communication solutions. Through our portfolio of IP products & solutions, with built-in intelligence and a focus on cybersecurity, we provide organizations with superior, scalable security and flexibility. Zenitel is the proven, preferred choice for environments requiring crystal-clear audio to ensure the protection of human life, property, assets and the management of critical activities. With interoperability at all levels, we seamlessly integrate with access control, video management and security platforms.
